Jake Report:

Completed MVP or ReadMe: No

    -> Jake has 3, one-one files with Hans and a similarity index average of 35%

    -> Jake has 1, one-one files with Steve and a similarity index average of 27%

    -> Jake has 1, one-one files with Joaquin and a similarity index average of 24%

    -> Jake has 0, one-one files with Zachary and a similarity index average of 29%

~~~~~~~~~~~~~~~~~~~~~~~~

Steve Report:

Completed MVP or ReadMe: No

    -> Steve has 1, one-one files with Joaquin and a similarity index average of 20%

    -> Steve has 1, one-one files with Hans and a similarity index average of 26%

    -> Steve has 0, one-one files with Zachary and a similarity index average of 21%

    -> Steve has 1, one-one files with Jake and a similarity index average of 27%

~~~~~~~~~~~~~~~~~~~~~~~~

Zachary Report:

Completed MVP or ReadMe: No

    -> Zachary has 0, one-one files with Joaquin and a similarity index average of 24%

    -> Zachary has 0, one-one files with Hans and a similarity index average of 31%

    -> Zachary has 0, one-one files with Jake and a similarity index average of 29%

    -> Zachary has 0, one-one files with Steve and a similarity index average of 21%

~~~~~~~~~~~~~~~~~~~~~~~~

Joaquin Report:

Completed MVP or ReadMe: No

    -> Joaquin has 1, one-one files with Hans and a similarity index average of 25%

    -> Joaquin has 1, one-one files with Jake and a similarity index average of 24%

    -> Joaquin has 1, one-one files with Steve and a similarity index average of 20%

    -> Joaquin has 0, one-one files with Zachary and a similarity index average of 24%

~~~~~~~~~~~~~~~~~~~~~~~~

Hans Report:

Completed MVP or ReadMe: No

    -> Hans has 3, one-one files with Jake and a similarity index average of 35%

    -> Hans has 1, one-one files with Steve and a similarity index average of 26%

    -> Hans has 1, one-one files with Joaquin and a similarity index average of 25%

    -> Hans has 0, one-one files with Zachary and a similarity index average of 31%
